MM ORGANIZATIONAL STRUCTURE

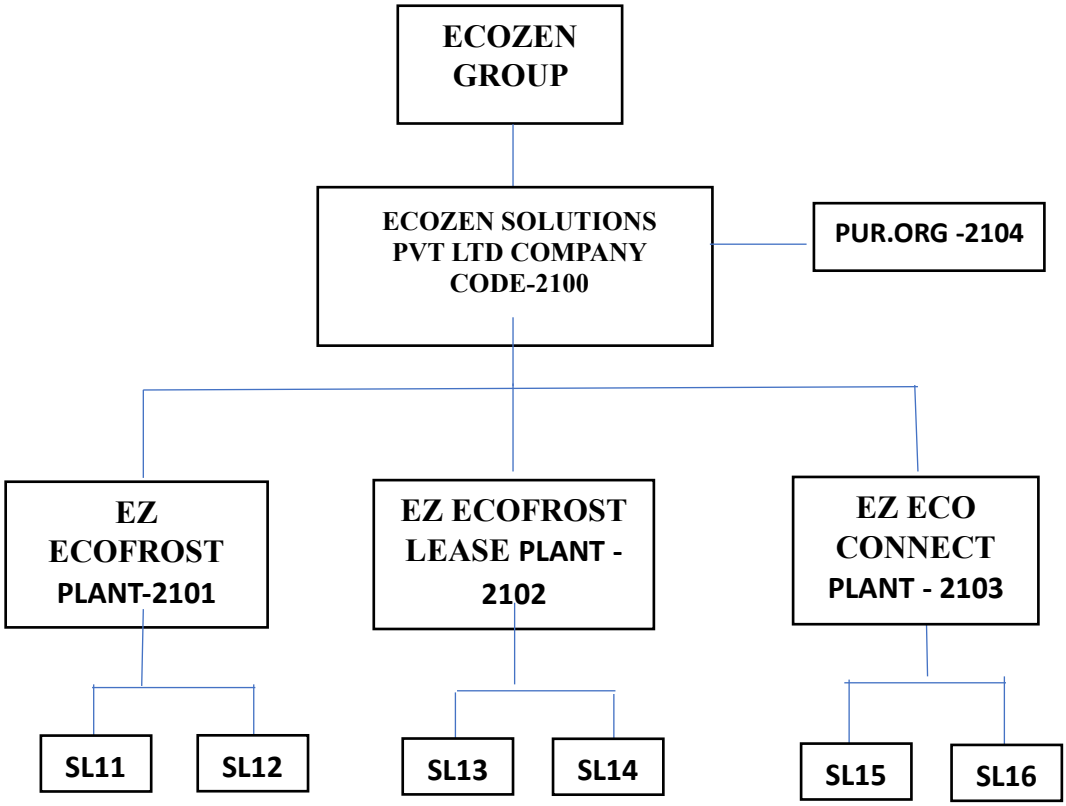

This document outlines the SAP MM organizational structure and describes the key organizational elements associated with the Materials Management (MM) module, which are covered in the following sections.

- **Company**
- **Company Code**
- **Plant**
- **Storage Location**
- **Purchase Organization**
- **Purchasing Group**

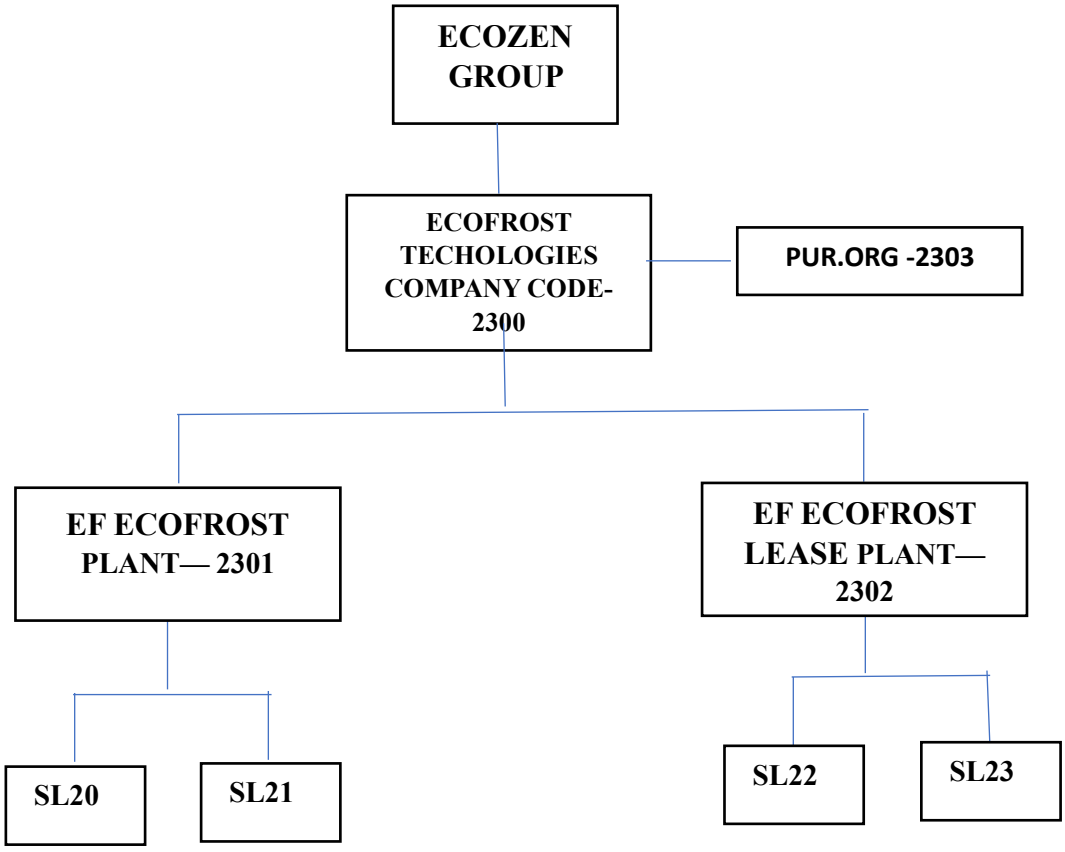

ORGANIZATION STRUCTURE DIAGRAM

ENTERPRISES STRUCTURE FOR ECOZEN SOLUTION

ENTERPRISES STRUCTURE FOR ECOFROST TECHNOLOGIES

A) Organizational Structure

1. COMPANY

A company represents the corporate-level organizational unit in SAP. It provides a common framework for identifying the organization and supports the overall organizational and financial structure.

- **T-code: OX15**
- **Company Key: - ECOZE1**
- **Company Name: - ECOZEN SOLUTIONS PVT LTD**
- **Country / City: IN / Pune**

TRANSPORT REQUEST: - A4HK908947

MM_PORJECT_ACHAL81 22/10/2026

2. COMPANY CODE

A company code is the smallest organizational unit in SAP for which a complete set of financial statements can be prepared. It represents a legally independent entity and is used to manage financial accounting transactions separately for each business entity.

T-Code: - OX02

Sr	Company Code	Description	Address
1	2100	Ecozen Solutions Pvt Ltd.	Survey No. 134/1,134/2,130/3, Dehu Road, Katraj Bypass, Tathwade,Pune 411033, Maharashtra, India
2	2300	Ecofrost Technologies Pvt Ltd.	Survey No. 134/1,134/2,130/3, Dehu Road, Katraj Bypass, Tathwade,Pune 411033, Maharashtra, India

In this project, company codes 2100 and 2300 represent Ecozen Solutions Pvt Ltd. and Ecofrost Technologies Pvt Ltd., respectively.

3. PLANT DETAILS

T -Code: - 0X10

A plant is an organizational unit within SAP where materials are produced, stored, procured, or distributed. Each plant is assigned to a company code and plays an important role in inventory management, procurement, and material planning.

In this project, plants 2101, 2102, and 2103 are assigned to company code 2100, while plants 2301 and 2302 are assigned to company code 2300.

Plant Code	Description	Region/Address	Assigned Comp Code
2101	EZ ECOFROST PLANT	Dehu Road, Katraj Bypass, Pune	2100
2102	EZ ECOFSOST LEASE PLANT	Dehu Road, Katraj Bypass, Pune	2100
2103	EZ ECO CONNECT PLA	Dehu Road, Katraj Bypass, Pune	2100

Plant Code	Description	Region/Address	Assigned Comp Code
2301	EF ECOFROST PLANT	Dehu Road, Katraj Bypass, Pune	2300
2302	EF ECOFROST LEASE PLANT	Dehu Road, Katraj Bypass, Pune	2300

4. STORAGE LOCATION

T-code: OX092

A storage location is an organizational unit within a plant used to identify the physical or logical location where materials are stored. It enables inventory tracking and management at a more detailed level within each plant.

For plants assigned storage locations for company code 2100 For Plant 2101,2102,2103

Plant	Storage Location Code	Description
2101	SL11	SLOC 1 FOR 2101
2101	SL12	SLOC 2 FOR 2101
2102	SL13	SLOC 1 FOR 2102
2102	SL14	SLOC 2 FOR 2102
2103	SL15	SLOC 1 FOR 2103
2103	SL16	SLOC 2 FOR 2103

For plants assigned storage locations for company code 2300 For Plant 2301,2302

Plant	Storage Location Code	Description
2301	SL20	SLOC 1 FOR 2301
2301	SL21	SLOC 2 FOR 2301
2302	SL22	SLOC 1 FOR 2302
2302	SL23	SLOC 2 FOR 2302

5. PURCHASING ORGANIZATION FOR ECOZEN

A purchasing organization is an organizational unit responsible for procurement activities, including negotiating with vendors, purchasing materials and services, and managing purchasing agreements. It can operate at the company-code level or across multiple company codes, depending on the organizational setup.

T – CODE -OX08

Purchasing Organization	Description	Company Code
2104	Purchasing organization for Ecozen Solution Pvt.Ltd	2100
2303	Purchasing organization for Ecofrost Technology Pvt .Ltd	2300

In this project, purchasing organization 2104 is associated with company code 2100, and purchasing organization 2303 is associated with company code 2300.

6. PURCHASING GROUP

A purchasing group represents a buyer or a group of buyers responsible for specific procurement activities. It manages day-to-day purchasing operations, coordinates with vendors, follows up on purchase orders, and supports timely material procurement.

T – Code –OME4

Purchase Group For Ecozen Solution Pvt.Ltd

Purchase Groups	Purchase Groups Description
220	Shantanu Mahajan
221	Sudhakar Rathod
223	Kaustubh
224	Anil Patidar

225	Admin
226	IT
227	Marketing

Purchase Group For Ecofrost Technologies Pvt.Ltd

Purchase Groups	Purchase Groups Description
230	Maintenance
231	Production
232	K. Arun
233	Kiran
234	Admin

B] Assignment of Organizational Elements

Assign Company Code to Company

Company code assignment establishes the relationship between a company and its company codes in SAP. This assignment helps organize financial accounting and reporting for the relevant business entities.

T-Code: - OX16

Company Code	Company
2100	Ecozen Solutions Pvt Ltd.
2300	Ecofrost Technologies Pvt Ltd.

Assign Plant to Company Code

A plant is assigned to a company code to establish the organizational relationship required for inventory management, procurement, and financial accounting. Each plant must be assigned to one company code.

T-Code: - OX18

Plant	Company Code
Ez Ecofrost Plant-2101	Ecozen Solution Pvt Ltd -2100
Ez Ecofsost Lease Plant - 2102	Ecozen Solution Pvt Ltd -2100
Ez Eco Connect Plant -2103	Ecozen Solution Pvt Ltd -2100
Ef Ecofrost Plant-2301	Ecofrost Technologies Pvt Ltd - 2300
Ef Ecofrost Lease Plant - 2302	Ecofrost Technologies Pvt Ltd - 2300

Assign Purchasing Organization to Company Code

A purchasing organization is assigned to a company code to establish responsibility for procurement activities within the relevant business entity. This assignment supports purchasing administration and vendor-related procurement processes

T-Code: - OX01

Purchasing Organization	Company Code
2104	Ecozen Solution Pvt Ltd -2100
2303	Ecofrost Technologies Pvt Ltd - 2300

Assign Purchasing Organization to Plant

A purchasing organization is assigned to a plant to establish responsibility for procurement activities at that plant. This configuration enables the purchasing organization to procure materials and services for the assigned plants.

T-Code: - OX17

Purchasing Organization	Plant
2104	Ez Ecofrost Plant-2101
2104	Ez Ecofsost Lease Plant -2102
2104	Ez Eco Connect Plant -2103
2303	Ef Ecofrost Plant-2301
2303	Ef Ecofrost Lease Plant -2302

C| BUSINESS PARTNER CONFIGURATION

Business Partner & Vendor Account Group Configuration

Business Partner configuration is used to manage supplier master data in SAP S/4HANA. Vendor account groups classify suppliers based on their business activities, such as domestic material vendors, import vendors, one-time vendors, and service vendors.

Business Process	Vendor Account Group	Description	Assigned Number Ranges {internal}
Domestic Material Vendor	EZ11	Ecozen Domestic Supplier	%J
Import Material Vendor	EZ12	Ecozen International Supplier	33
One Time Vendor	EZ13	Ecozen One Time Supplier	34
Service Vendor	EZ14	Ecozen Service Supplier	36
Domestic Material Vendor	EF15	Ecofrost Domestic Supplier	*0
Import Material Vendor	EF16	Ecofrost International Supplier	*X
One Time Vendor	EF17	Ecofrost One Time Supplier	,J
Service Vendor	EF18	Ecofrost Service Supplier	-P

Define Grouping And Assign Number Ranges

Business Partner grouping categorizes business partners and determines the number range used during Business Partner creation.

Business Process	**Grouping**	**Description**	**Assigned Number Ranges {internal}**
Domestic Material Vendor	EZ15	Ecozen Domestic Supplier	%J
Import Material Vendor	EZ16	Ecozen International Supplier	33
One Time Vendor	EZ17	Ecozen One Time Supplier	34
Service Vendor	EZ18	Ecozen Service Supplier	36
Domestic Material Vendor	EF11	Ecofrost Domestic Supplier	*0
Import Material Vendor	EF12	Ecofrost International Supplier	*X
One Time Vendor	EF13	Ecofrost One Time Supplier	,J
Service Vendor	EF14	Ecofrost Service Supplier	-P

D| MATERIAL MASTER CONFIGURATION

Material Type

Material types classify materials according to their characteristics and business usage. They control material master settings, including number ranges, field selection, and inventory management requirements.

T – Code – OMS2

Material Type	Standard Type	Customize Type	Assigned Number Ranges {internal}
Raw Material	ROH	ROHC	01
Semifinished Material	HALB	HALC	0*
Finished Material	FERT	FERC	81
Returnable Packaging	LEIH	LEIC	92

Material Groups

Material groups categorize materials with similar characteristics for easier procurement, reporting, and analysis.

T-Code: - OMSF

Material Group	Description
500	Chemical
501	Plastic
502	Machine Spare Part
504	Food

Purchase Value Key

A purchase value key defines default purchasing-related parameters, such as reminder intervals and underdelivery or overdelivery tolerances, depending on the configuration. It helps standardize purchasing controls for materials.

T – Code- OME1

- 222 - Purchase value key
- 333- Purchase value key

Industry Creation

The industry sector identifies the industry to which a material belongs and influences the screen selection and field layout during material master creation.

T – Code: - OMS3

- N– Manufacturing
- S– Chemical Industry

E| DOCUMENT TYPES

Document types in SAP MM are used to classify purchasing documents based on business requirements. They control document identification, number ranges, and field selection for different procurement processes.

DOCUMENT TYPE FOR PURCHASE ORDER (PO)

Purchase Order document types support different procurement activities, including domestic purchasing, imports, consumables, subcontracting, services, assets, stock transfers, and returns. Customized document types help maintain separate numbering and purchasing processes.

Standard PO document type: - NB

Field selection: - ANBF

Document Type	Standard Document Type	Customize Document Type	Number Range
Domestic PO	ZDOM	RA21	4%
Consumable PO	ZCON	RA22	5P
Subcontracting PO	ZSUB	RA23	6%
Stock Transfer PO	ZSTO	RA24	8*
Service PO	ZSER	RA25	9%
Import PO	ZIIMP	RA26	97

Document Type	Standard Document Type	Customize Document Type	Number Range
Asset	ZAST	RA27	96
Stock transfer PO	ZSTS	RA28	A2
Stock transfer PO	UB	RA29	B-
Return PO	ZRET	RA30	5@
Scheduling Agreement Standard	LP	RA31	BW

DOCUMENT TYPE FOR PURCHASE REQUSITION (PR)

Purchase Requisition document types classify internal requests for materials or services. They support procurement planning and provide a basis for creating subsequent purchasing documents.

Standard PR document type: - NB
Field selection: - ANBE

Document Type	Standard Document Type	Customize Document Type	Number Range
Domestic PR	ZAST	EF11	10
Consumable PR	ZCON	EF12	11
Subcontracting PR	ZSUB	EF13	6!
Stock Transfer PR	ZSTO	EF14	6@
Service PR	ZSER	EF15	A7
Asset PR	ZAST	EF16	B&
Import PR	ZIMP	EF17	B1
Stock transfer PR	ZSTS	EF18	B2
Stock transfer PR	UB	EF19	BD
Return PR	ZRET	EF20	OK

DOCUMENT TYPE FOR RFQ

Standard document type: - AN

Configured Document Type: - CAN

Field selection: - BAN

Number Range – 8$

F] RELEASE STARTEGY FOR PURCHASE ORDER

This is the process in which we need a permission of higher authority/ authorized person of company or department to enter the material stock in our premises or storage location.

Configuration Steps: -

Edit Characteristics-

- PO release for plant

Table Name- CEKKO Field Name- WERKS

Characteristics- PORELEASEFORPLANT

- Po Release For Company Code

Table Name- CEKKO Field Name- BUKRS

Edit Class-

Class-PORELEASECLASS-RC

Define Release Procedure

Release Group-BN

Release Code-1B,2B,3B

Release Indicator

B – Blocked R – Release

Release Strategy

1B- Head 2B- Manager 3B- Senior

F| PRICING PROCEDURE

Pricing procedure is the combination of different type charges like gross price, discount, freight, surcharge etc.

Pricing procedure is used to determine these all conditions into one procedure, where we can find subtotal of the net amount

- Condition table: – 564
- Access sequence: -A564
- Condition type: - gross price-a564 discount- B564
- Maintain calculation schema pricing procedure- A564
- Schema grp for supplier: - AR, AC
- Schema Grp for Purchasing Organisation: - AR11, AR12
- Assign schema group to purchasing organisation: -

Schema Gr Pur. org	Pur.org
AR11	2104
AR12	2303

Maintain Schema Determination

Schema Grp Pur. Org	Schema Grp Supp.	Procedure	Description
AR11	AR	A564	Pricing Procedure
AR12	AC	A564	Pricing Procedure

G| AUTOMATIC ACCOUNT DETERMINATION

Automatic account determination in sap mm is a process where the system automatically identifies the correct general ledger account for accounting relevant transaction such as goods movement and invoices

MM -FI INTEGRATION

Material Code	Description	Valuation Class	Acr
ROHC	**Raw Material**	**AR20**	**B001**
HALC	**Semifinished**	**AR21**	**B002**
FERC	**Finished**	**AR22**	**B003**
LEIC	**Returnable**	**AR24**	**B004**
